6-May :

1. How would you introduce the idea of formal verification to students?

Obj is to expand on previous work
→ qRHL quick-start guide

Formal Verification: A primer.

2. Discuss about setting up the environment.

→ Screen recording + Audio?

→ Script that can do the install.

→ Zulip : There will be a distributable in the first release

3. Recommended pre-requisites.

4. Formal logics and abstraction: Introduction.

---

5. Idea: PDF + .ec files demonstrating certain concepts?

---

6. chap 0 is a good way to demonstrate ambient logic.

---

7. Various models of formal verification. ← In preface.
   ↳ Draw from the stackoverflow
                  answer, galois blogpost
   and discuss with Dominique
